PROFESSIONAL SUMMARY

Full Stack & AI Engineer with strong problem-solving skills and hands-on experience building production-grade applications using Next.js, React, Python, Flask, and PostgreSQL. Proven ability to design scalable systems, develop RESTful APIs, and integrate AI solutions using OpenAI and RAG pipelines. Experienced in end-to-end product development, performance optimization, and secure role-based architectures. Passionate about clean code, system design, and building reliable software that scales.

EDUCATION

Bachelor of Technology in Computer Science <i>CVR College of Engineering, Hyderabad</i>	2020 – 2024 <i>CGPA: 7.77/10.0</i>
Higher Secondary Education (MPC) <i>Narayana Junior College</i>	2018 – 2020 <i>Percentage: 91.3%</i>
Secondary School Education <i>Narayana High School</i>	2017 – 2018 <i>GPA: 8.7/10.0</i>

TECHNICAL SKILLS

Programming Languages: Python, C++, C, JavaScript, SQL
Web Technologies: HTML, CSS, ReactJS, NextJS, Python, Flask, FastAPI, Bootstrap, Tailwind CSS
Databases: MongoDB, SQL, PostgreSQL
Development Tools: Git, GitHub, Figma, Android Studio, Docker, Azure, AWS
Other Technologies: RESTful APIs, OpenCV, MediaPipe, Responsive Design, LLMs, Web Scraping, Web Crawling

EXPERIENCE

AI Associate <i>Alliance Pro IT Pvt Ltd</i>	June 2025 – April 2026 <i>Hyderabad</i>
Subtitle Generator for Live Videos - Built a real-time subtitle system for live news broadcasts, reducing manual subtitle effort by 90% - Integrated Azure Speech-to-Text and Translator APIs to convert English/Hindi speech into Telugu with low latency - Implemented automated SRT generation with millisecond-accurate timestamps for live synchronization - Optimized Python streaming pipeline to maintain sub-second delay under continuous video input - Enabled large-scale regional content accessibility for Telugu-speaking audiences	September 2025 – October 2025
Alliance GPT & Sales Tool - Developed an internal GPT using Retrieval-Augmented Generation (RAG) over company knowledge for faster and more accurate query resolution - Built “Alli Sales Agent,” a data extraction platform to help sales teams discover potential leads from public websites - Implemented scalable web crawling using Python and BeautifulSoup with structured data normalization - Developed a React-based frontend and role-based access system for multi-department usage - Adopted by 15+ internal users across sales and operations teams during pilot usage	June 2025 – August 2025
Industry Partner Registration Portal (DRDO–RCI) - Designed and built a full-stack pre-production portal from scratch for Industry Partner onboarding workflows - Implemented a secure Flask backend with PostgreSQL for structured records, validation, and role-based access - Developed a modern Next.js frontend with responsive UX for partners and administrators - Implemented complete workflow logic including registration, submissions, status tracking, and admin dashboards - Engineered data models to support 500+ partner records and multi-stage approval workflows	November 2025 – December 2025

PROJECTS

Wireless Volume Control <i>Python, OpenCV, MediaPipe</i>	2023
- Engineered hands-free volume control system using computer vision technologies - Implemented real-time hand gesture recognition using MediaPipe for contactless interaction - Integrated system volume controls with gesture detection algorithms - GitHub: github.com/gagannani99/Wireless-Volume-Control-Final	
Bluetooth Messaging App <i>Java, Android SDK, Bluetooth API</i>	2024
- Developed Android application for peer-to-peer communication without internet connectivity - Implemented Bluetooth discovery, pairing, and secure connection protocols - Created intuitive UI for real-time messaging and file sharing between devices - GitHub: github.com/gagannani99/Bluetooth-Messaging-and-File-Sharing	

CERTIFICATIONS AND ACHIEVEMENTS

MERN Stack Developer - Nxtwave CCBP Intensive: Completed intensive full-stack development program focused on building scalable applications using MongoDB, ExpressJS, ReactJS, and NodeJS with hands-on projects and industry-level coding practices. CGPA: 9.8/10

ADDITIONAL INFORMATION

Languages: English, Telugu, Hindi
